

TO WHOMSOEVER IT MAY CONCERN

Dated: 30th May 2023

Siam Global Engineering Co Ltd, 111 M. 3, T. Bowin, A. Sriracha, Chonburi 20230 Thailand, has applied to Steelwork Compliance Australia (SCA), for it to be assessed and certified to AS/NZS 5131 certification.

SCA performs certification audits in two stages:

Stage 1 is the Desktop Audit in which the fabricator fills out a questionnaire and provides documents requested by SCA. SCA assesses the documents and information provided by the fabricator and prepares a Gap Analysis Report highlighting the areas which need rectification by the fabricator. The fabricator is then required to fix these gaps and provide further documents and evidences.

Stage 2 is the Site Audit. On satisfactory completion of Stage 1, a Site Audit is conducted by SCA to ascertain the information provided in Stage 1 audit and demonstrable compliance to AS/NZS 5131 requirements. On satisfactory completion of Stage 2 audit, the fabricator is awarded the appropriate Certification

As of today, Siam Global Engineering has paid Stage 1 fee.

If you need any further information about the status of the application, please contact me
