To Whom it may concern,

I write this letter to highly recommend Global Eng for their continued efforts in offering a professional and quality service.

IPC have worked and liaised with Global Eng for the last 3-4 years in an array of projects, each of which has been made easy and seamless with their support. We found Global in a time of struggle as local engineering outfits couldn't help us or couldn't offer us the quality of product and the turn around we required.

Global have offered IPC Technical advice, shop drawings, 3D modelling and an overall pleasant experience, I have enjoyed working with Global and will continue to into the future.

Regards

Reece Fissioli
Operations Manager
